

AW24 C/O

Since 2005, VEJA has been creating sneakers in a different way, mixing social projects, economic justice, and ecological materials.

VEJA uses Brazilian and Peruvian organic and agroecological cotton for the canvas and laces, Amazonian rubber for the soles, and various innovative materials conceived in recycled plastic bottles or recycled polyester.

VEJA sneakers are produced in high-standard factories in Brazil.

Part of VEJA's logistics is managed by Log'ins, a professional and social inclusion company.
